**THIS IS NOT A MECHANICAL INSPECTION / IT IS A VISUAL INSPECTION ONLY / WE RECOMMEND YOU INSPECT PRIOR TO PURCHASE**

**COMMENTS:** Hours Unverified. Starts and runs but has an unknown electrical issue. When turning the key, the dash may not light up (but the unit does start and run when this happens). If the dash does not light up, the unit will not move, and the controls will not work. However, the unit can be turned on and off with the key, and the dash will eventually light up, and the unit will start, run, and operate. This is reported to possibly be a corrosion or wiring issue
